INDEPENDENT AUDITOR'S REPORT

To the Board of County Commissioners
Atchison County
Atchison, Kansas

We have audited the accompanying primary government financial statements of County of Atchison, Kansas, as of and for the year ended December 31, 2008, and the individual fund financial statements of the County as of and for the year ended December 31, 2008, as listed in the table of contents. These financial statements are the responsibility of County of Atchison, Kansas management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the *Kansas Municipal Audit Guide*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

A primary government is a legal entity or body politic and includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate. Such legally separate entities are referred to as component units. The primary government financial statements referred to above do not include the financial data of component units of County of Atchison, Kansas, as of December 31, 2008.

As described in Note 1, the County of Atchison, Kansas, prepared these financial statements using accounting practices prescribed by the State of Kansas to demonstrate compliance with the cash basis and budget laws of the State of Kansas, which practices differ from generally accepted accounting principles. The effects on the financial statements of the differences between the regulatory basis of accounting and generally accepted accounting principles are also described in Note 1.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all

material respects, the cash and unencumbered cash balances of County of Atchison, Kansas, as of December 31, 2008, and its cash receipts, cash disbursements, and expenditures compared to budget, for the year then ended on the basis of accounting described in Note 1. Also, in our opinion, the individual fund financial statements as of and for the year ended December 31, 2008, present fairly, in all material respects, the cash receipts, expenditures, and unencumbered cash balances, on the basis of accounting described in Note 1.

Our audit was conducted for the purpose of forming an opinion on the primary government financial statements taken as a whole. The information identified in the table of contents as supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole, on the basis of accounting described in Note 1.

1. Summary of Significant Accounting Policies

Fund Accounting:

A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The following types of funds comprise the financial activities of the County, for the year of 2008.

Governmental Funds:

General Fund -- to account for all unrestricted resources except those required to be accounted for in another fund.

Special Revenue Funds -- to account for the proceeds of specific revenue sources (other than special assessments or major capital projects) that are restricted by law or administrative action to expenditure for specified purposes.

Capital Project Funds -- to account for financial resources segregated for the acquisition of major capital facilities (other than those financed by Enterprise Funds).

Debt Service Funds -- to account for the accumulation of resources for, and the payment of, interest and principal on general long-term debt, and the financing of special assessments which are general obligations of the County.

Proprietary Funds:

Enterprise Funds -- to account for operations that are financed and operated in a manner similar to private business enterprises--where the stated intent is that the costs (expenses, including depreciation of providing goods or services to the general public on a continuing basis) be financed or recovered primarily through user charges--or where periodic determination of revenues earned, expenses incurred, and/or net income is deemed appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Fiduciary Funds:

Trust and Agency Funds -- to account for assets held by a governmental unit in a trustee capacity or as an agent for individual, private organization, other governmental units, and/or other funds. These include (a) Expendable Trust Funds, (b) Nonexpendable Trust Funds, (c) Pension Trust Funds, and (d) Agency Funds.

Basis of Accounting

These financial statements are presented on a basis of accounting, which demonstrates compliance with the cash basis and budget laws of Kansas. Cash receipts are recognized when the cash balance of a fund is increased. For an inter-fund transaction, a cash receipt is recorded in the fund receiving cash from another fund. Cash disbursements are recognized when the cash balance of a fund is decreased. For an inter-fund transaction, a cash disbursement is recorded in the fund from which the cash is transferred. Expenditures include disbursements, accounts payable and encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services, and are usually evidenced by a purchase order or written contract.

The County has obtained a GAAP waiver from the State of Kansas, which thereby requires this type of special reporting.

Departure from Generally Accepted Accounting Principles

The basis of accounting described above results in a financial statement presentation which shows cash receipts, cash disbursements, cash and unencumbered cash balances, and expenditures compared to budget. Balance sheets that would have shown non-cash assets such as receivables, inventories, and prepaid expense, liabilities such as deferred revenue and matured principal and interest payable, and reservations of the fund balance are not presented. Under generally accepted accounting principles, encumbrances are only recognized as a reservation of fund balance; encumbrances outstanding at year end do not constitute expenditures or liabilities. Consequently, the expenditures as reported do not present the cost of goods and services received during the fiscal year in accordance with generally accepted accounting principles. General fixed assets that account for the land, buildings, and equipment owned by the County are not presented in the financial statements. Also, general long-term debt such as general obligation bonds, temporary notes, and compensated absences are not presented in the financial statements.

Reporting Entity

Atchison County is a municipal corporation governed by an elected three-member commission. These financial statements present Atchison County (the primary government) and its component units. The component units are included in the county's reporting entity because of the significance of their operational or financial relationships with the county.

Discretely Presented Component Units

The component units section of the financial statements includes the financial data of the discretely presented component units. These component units are reported separately to emphasize that they are legally separate from the county. Except for the Law Library, the governing bodies of these component units are elected. The Law Library is operated independently of the county.

1. Law Library. The Law Library is fiscally independent of the county. It is required by statute to be audited as part of the county audit. The Law Library is housed in county offices but is operated independent of the county's governing body.

2. Conservation District. Atchison County Conservation District is operated by an elected five-member board of supervisors. The district conducts programs related to soil erosion, flood damage prevention, and water quality. The county annually provides significant operating subsidies to the district.

3. Extension Council. Atchison County Extension Council provides services in such areas as agriculture, home economics, and 4-H club, to all persons in the county. The council is an elected four-member executive board. The county annually provides significant operating subsidies to the council.

2. Budgetary Information

Kansas statutes require that an annual operating budget be legally adopted for the general fund, special revenue funds (unless specifically exempted by statute), debt service funds, and enterprise funds. The statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

1. Preparation of the budget for the succeeding calendar year on or before August 1st.
2. Publication in local newspaper of the proposed budget and notice of public hearing on the budget on or before August 5th.
3. Public hearing on or before August 15th, but at least ten days after publication of notice of hearing.
4. Adoption of the final budget on or before August 25th.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication the hearing may be held and the governing body may amend the budget at that time. There was a budget amendment this year.
The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Budget comparison statements are

presented for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

All legal annual operating budgets are prepared using the modified accrual basis of accounting, modified further by the encumbrance method of accounting. Revenues are recognized when cash is received. Expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments by the municipality for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations (legal budget expenditure authority) lapse at year-end.

A legal operating budget is not required for capital project funds, trust funds, and the following special revenue funds:

Special Road and Bridge Machinery
County Capital Improvement
Capital Project Fund for Sales Tax Revenue
Crime Victims Assistance
Special Law Enforcement
Ambulance Capital Outlay
911 Emergency Communications
Noxious Weed Capital Outlay

Spending in funds which are not subject to the legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

3. Defined Benefit Pension Plan

Plan Description

Atchison County, Kansas participates in the Kansas Public Employees Retirement System (KPERS) and the Kansas Police and Firemen's Retirement System (KP&F). Both are part of a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, *et seq*. KPERS and KP&F provide retirement benefits, life insurance, disability income benefits, and death benefits. Kansas law establishes and amends benefit provisions. KPERS and KP&F issue a publicly available financial report (only one is issued) that includes financial statements and required supplementary information. Those reports my be obtained by writing to KPERS (611 S. Kansas Avenue, Suite 100; Topeka, KS 66603-3803) or by calling 1-888-275-5737.

Funding Policy

K.S.A. 74-4919 establishes the KPERS member-employee contribution rate at 4% of covered salary. K.S.A. 74-4975 establishes KP&F member-employee contribution rate at 7% of covered salary. The employer collects and remits member-employee contributions according to the provisions of section 414(h) of the Internal Revenue Code. State law provides that the employer contribution rates be determined annually based on the results of an annual actuarial valuation. KPERS and KP&F are funded on an actuarial reserve basis. State law sets a limitation on annual increases in the employer contribution rates. The KPERS employer rate established by statute for calendar year 2008 is 4.93 **%.** Atchison County, Kansas employer contributions to KPERS for the years ending December 31, 2008, 2007, and 2006, were $ 170,127.64 , $ 171,550.47 , and $ 154,845.61 equal to the statutory required contributions for each year. The KP&F uniform participating employer rate established for the calendar year 2008 is 13.88 **%.** Employers participating in KP&F also make contributions to amortize the liability for past service costs, if any, which is determined separately for each participating employer. The contribution to KP&F for the year ending December 31, 2008 and 2007 were $ 54,061.04 and $ 50,734.41 equal to the statutory required contribution.

4. Statutory Violations

Budget Law Violations

Road and Bridge Fund exceeded its Budget by $67,566.66
Out of District Tuition exceeded its Budget by $720.91

Cash Basis Violations
The following funds exceeded their available cash:

NONE

5. Compensated Absences

As described in Note 1, these financial statements are prepared in compliance with the cash-basis and budget laws of Kansas; there is not a presentation for vested or accumulated vacation leave amount. The county's policy on vacation leave is as follows:

	Years of Service	Vacation Earned
Full-Time	0 to 10	8 hours / month
	Over 10	10 hours / month
Regular Part-Time	0 to 10	4 hours / month
	Over 10	5 hours / month

No more than 48 hours of vacation time can be carried forward. Any employee terminating employment shall receive pay for any vacation time accumulated during the current year plus any carryover up to 48 hours.

Sick leave is granted to regular full-time employees at a rate of 4 hours per month. Regular part-time employees are entitled to 2 hours of sick leave per month. Employees may accumulate 30 days or 240 hours of sick leave.

The amount of vacation, sick pay and annual leave benefits included in expenditures of the governmental fund types is the amount accrued during the year that would normally be liquidated with expendable available resources. The County has not determined the amount of accrued compensated absences payable for accumulated vacation and sick leave benefits at December 31, 2008.

6. Deposits and Investments

Deposits. At year-end the carrying amount of the county's deposits, including certificates of deposit, was $ 15,871,059.17 .The bank balance was $ 15,581,363.76 .The difference between the carrying amount and the bank balance is outstanding checks and deposits in transit. Of the bank balance, $ 1,495,394.53 was covered by FDIC insurance and $8,622,241.49 was collateralized by pledging securities held under joint custody receipts issued by a third-party bank in the county's name. The third-party bank holding the pledged securities is independent of the pledging bank. The pledged securities are held under a tri-party custodial agreement signed by all three parties: the county, the pledging bank, and the independent third-party bank holding the pledged securities.

Investments. Kansas statutes authorize the county to invest in U.S. Treasury bills and notes, repurchase agreements, and the State Treasurer's investment pool. All investments must be insured, registered, or held by the county or its agent in the county's name. The county's investments are categorized to give an indication of the level of risk assumed by the entity at year-end. Category 1 includes investments that are insured or registered, or for which the securities are held by the County or its agent in the County's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the dealer bank's trust department or agent in the County's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the dealer bank. Of the three risk categories, the investments classified in Risk Category 1 have the least risk to the municipality.

	Risk Category			Carrying	Market
	1	2	3	Amount	Value
Repurchase Agreements	$0.00	$0.00	$0.00	$0.00	$0.00
Certificates of Deposits	$3,096,176.67	$0.00	$0.00	$3,096,176.67	$3,096,176.67

7. Long-Term Debt

Following is a summary of charges in long-term debt for the year ended December 31, 2007:

Type of Issue	Beginning Principal Outstanding	Additions to Principal	Reductions of Principal	Ending Principal Outstanding
